## **Description Resource Path Location Type Java co** mpiler level does not match the version of (图解)

Description Resource Path Location Type Java compiler level does not match the version of

project 编译问题,需要三处的jdk版本要保持一致,才能编译通过。

1、在项目上右键properties->project Facets->修改右侧的version 保持一致

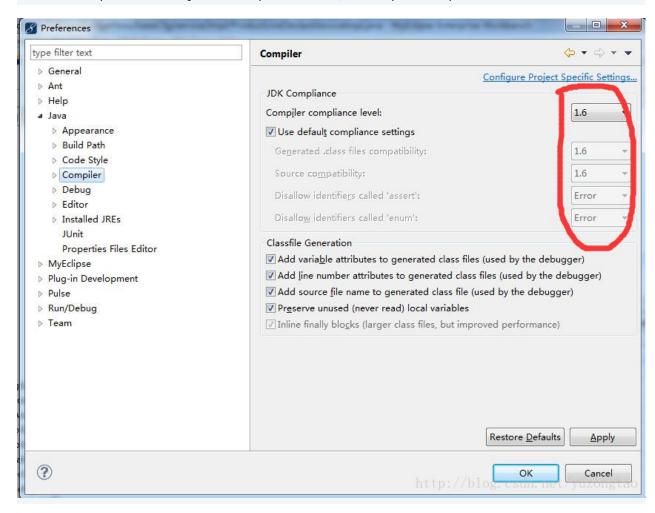

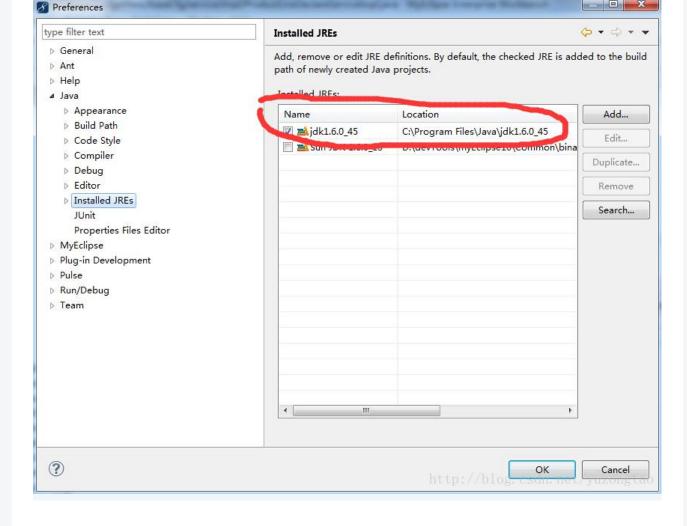

2、window->preferences->java->Compiler->设置右侧的Compiler compliance level

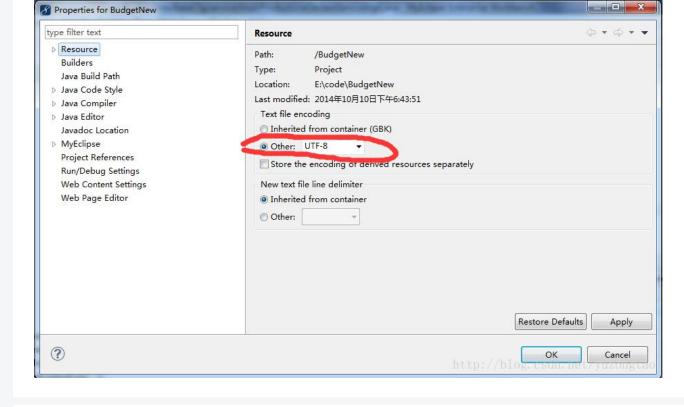

3、window->preferences->java->Installed JREs->设置或者选择右侧的Installed JREs

以上三处的jdk版本要保持一致,才能编译通过

另外,一般新导入的工程需要设置编码格式,如下图:
